ABOUT OUR COMPANY

We love our customers and we love their spaces!

For over 37 years, ELB has been a leading provider of solutions to create and maintain modern learning environments.

We offer today's best education technology, campus safety, audio visual, and flexible furniture solutions. Our full-service design, engineering, installation, training, and technical support teams offer the knowledge, skill, and expertise, to create, transform, or maintain any space.

We partner with each of our education customers in the design and development of their spaces—whether that's a classroom, library, gymnasium, cafeteria, lobby, administrative space, outside area, or any point in between— so that everyone can thrive and grow.

To date, we have supported thousands of schools, early childhood centers, training facilities, and school districts across the country and around the world in implementing new and innovative solutions. And we'd love to help you!

Whatever your vision, timeline, need, or budget, we have practical solutions and knowledgeable experts to help you succeed.

It's time to make a change. It's time to LOVE your space!

Due to the current volatility in the availability of raw and finished materials, please refer to our web site for the latest products. Likewise, we continuously review, evaluate, and in some cases make changes to our selection of manufacturers and service providers. Refer to our web site for our current vendors.

Return Policy: A return authorization is required for the return of any merchandise. All requests should be made within 60 (sixty) days of receipt of merchandise. Returned merchandise may be subject to a restocking fee or return freight charges. Returned products must be unused, undamaged, and in the original packaging.

Non-Returnable Goods: All furniture which have been custom sized, custom framed, or customized to specifications will be considered non-returnable items. Likewise, any technology that has been opened and configured to meet customer requirement is considered non-returnable goods.

ELEMENTS OF MODERN LEARNING SPACES

Our innovative education technology and flexible furniture solutions combine to create powerful, engaging, and equitable learning environments. Now, everyone can thrive in spaces which meet their differentiated needs.

Today's school and classroom furniture helps facilitate choice and addresses the learning needs of all students.

Modern, flexible classrooms give students a choice in how and where they can learn. This helps maximize their learning potential. Having the ability to move around and create spaces that best meet their needs also helps to improve communication, collaboration, and critical thinking in the classroom.

TECHNOLOGY

Today's students and teachers are technology savvy. Today's curriculum and learning resources are digital.

With a new generation of digitally literate teachers and students, the need for effective and engaging technology has never been greater. Ensuring equitable access is key. Technology helps facilitate participation and collaboration amongst students, ensuring their active role in the learning process.

FURNITURE

TODAY'S BEST SOLUTIONS

We are proud to work with the very best. Take advantage of today's top education technology and furniture solutions from:

LEARNING SPACE TRENDS

In exploring the possibilities for your current or future learning spaces, consider the latest trends, characteristics, and features of some of today's best learning environments.

MAKE IT INCLUSIVE

Personalized learning is transforming education

Student-centered learning is essential for equality and inclusion in education. It focuses on individual student strengths, needs and interests, and provides them with a customized “learning plan”. Flexible and active learning spaces, as well as project-based learning environments can help facilitate personalized learning. Our exceptional range of solutions can help you create the ideal inclusive learning environment.

IT'S GAME TIME!

Esports and E-gaming for the win

Esports and game-based learning bring real-world problems into the classroom. Gamification promotes inclusion, a student-centred learning process, and different learning styles simultaneously, instilling adaptability, communication and resourcefulness in learners. Our wide range of flexible furniture and personal devices create ideal gaming stations to engage all students.

FOCUS ON THE WHOLE

Take a holistic approach to healthy school design

Both educators and administrators are paying greater attention to the social emotional well-being and mental health of both students and staff. The COVID-19 pandemic adversely affected educators and students alike, the social isolation greatly impacting mental health. Let our experienced design team create customized student, administrative, or group gathering spaces that support the health and wellbeing of all.

LET'S GET MOVING

Active learning is here to stay

Active learning environments are student-centric, technology-rich spaces that support cooperative learning and peer-to-peer collaboration. They are easily identified by mobile student tables or desks and flexible seating. The benefits of active learning spaces are numerous and include improved student engagement, increased learner retention, enhanced student performance, and greater staff engagement. Our vast range of flexible furniture and collaboration technology offers the perfect mix for creating powerful active learning environments.

TAKE THEM BEYOND

The future is virtual

Virtual reality (VR) and augmented reality (AR) provide an immersive and holistic approach to learning that enhances learning opportunities. By preparing students for success beyond the classroom, VR and AR prioritize power skills, also known as soft skills, such as collaboration, leadership, empathy, and problem-solving. Our comprehensive range of virtual, collaborative, and STEAM technologies bring virtual learning to life.

BRING THE OUTSIDE IN

Natural elements offer many benefits

Biophilic design, which focuses on bringing nature and more natural environments inside, is a trend observed in nearly every aspect of interior design. In education, it offers many positive benefits for both staff and students. The use of windows, skylights, and glass walls to let in natural light, has been shown to positively impact mood, concentration, and productivity. Our selection of nature-inspired furniture, wall decor, and even technology can help you bring the outside in!

LET THEM EXPLORE

STEAM vs. STEM learning is on the rise

STEAM (Science, Technology, Engineering, Art and Math) education is more creative than its predecessor STEM. Its primary goal is to help students develop the skills required to be successful in the future. Students are engaged in meaningful, real-world learning through inquiry and problem-based learning experiences. Our portfolio offers the necessary hardware, software, and furniture solutions to set up the ideal STEAM environments in your school.

TEACHER'S TOP PICKS

Interested in modernizing your school or administrative spaces, but don't know where to start? To provide some inspiration, here's a collection of our most popular and in-demand technology and furniture solutions.

PERSONAL DEVICES

Chromebooks, laptops, and even desktop computers for both students and teachers remain very popular. They are the perfect solution for delivering digital curriculum, facilitating collaboration, or supporting 1:1 learning across any learning space.

SOFT, FLEXIBLE SEATING

Interactive learning environments have proven to increase student collaboration and engagement. Interactive panels offer many benefits for full-class, small group, or even individual learning, and continue to be very popular.

INTERACTIVE PANEL SYSTEMS

Our soft seating and mobile furniture solutions are the most popular amongst our education customers. With unmatched flexibility and comfort, these fun yet functional products are transforming school spaces nationwide.

Due to the nature of today's ever-changing and multi-purpose learning environments, educators need to focus on flexibility. Our wide range of multi-functional furniture meets these needs and is very popular amongst our customers.

MULTI-FUNCTIONAL FURNITURE

STEAM spaces encourage a continuous journey of prototyping, testing, probing, questioning, and experimenting. Our popular STEAM devices facilitate high levels of engagement and support endless inquiry and creativity.

STEAM DEVICES

GAMING STATIONS

Gaming, virtual reality, and Esports are becoming very popular activities within schools. Our gaming technology and furniture are perfect for any gaming environment.

DIGITAL SIGNAGE AND MASS COMMUNICATION

Using digital media to deliver content and communications is a smart and effective way to ensure your messages are received. Our digital signage solutions are in high demand and can meet all your needs.

MOBILE STORAGE

Especially in STEAM spaces, but also in standard classrooms, our mobile storage solutions are highly popular as they maximize flexibility, functionality, security, and ease of implementation.

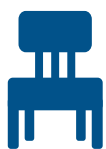

Modernizing a classroom almost always includes the implementation of new, configurable desks. We have a large selection of innovative options that schools love.

MOBILE AND CONFIGURABLE DESKS

Let us help you...

LOVE YOU

CLASSY CLASSROOMS

Today's classrooms are flexible and use form and function, creativity and color to support the learning needs of all students.

CLASSROOMS

Today's classrooms are flexible and use form and function, creativity and color to support the learning needs of all students.

Our wide and innovative range of technology and furniture solutions can make any classroom fun and engaging.

MAKE IT MODERN

Today's student-centric classrooms and learning spaces support engagement, collaboration, and today's new realities.

If your goal is to upgrade, transform, or even create new classrooms, selecting quality products and a sound design is important for success. We offer a variety of products and services to meet your needs.

"The physical environment of the classroom has a significant impact on student learning, behavior, and attitudes. A well-designed classroom can enhance engagement, promote collaboration, and support student success"

- Rebecca Hare

LOVE YOUR SPACE

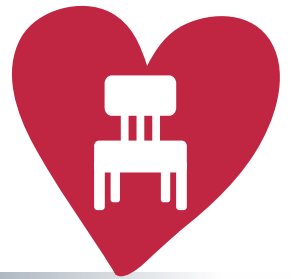

Educator Tips...

- Kids (of all ages) love a bright and fun space. Choose furniture colors or patterns that are appealing and attractive to the eye.
- Less is more. With multi-purpose and flexible furniture, you can do more with less. Allow for open areas and spaces.
- Keep it learner-focused. Choose furniture and technology that offer opportunities for all students.
- Provide training, coaching or online tutorials to support your teachers and staff in developing their technology and digital curriculum skills.

CLASSROOMS

TECHNOLOGY

INTERACTIVE FLAT PANELS

Make any space interactive and engaging

Large-format touchscreens are ideal for creating interactive learning environments anywhere in the school.

CARTS, LIFTS AND MOUNTS

The perfect compliment to your display or panel

Choose from mobile or wall-mounted options, with height-adjustable and tilting features also available.

DIGITAL DISPLAYS / TV'S

Create a digital classroom with ease

Enhance your classroom learning experiences with the addition of digital media content.

VIDEO AND CONFERENCING DEVICES

Expand the reach and capabilities of your classroom

Create a learning environment that's rich in media, audio, video, and conferencing elements for the benefit of all.

DESKTOP COMPUTERS

Maximum computing power at your fingertips

Create stationary student workstations within your classroom or provide desktop PC's for your teachers.

CHROMEBOOKS

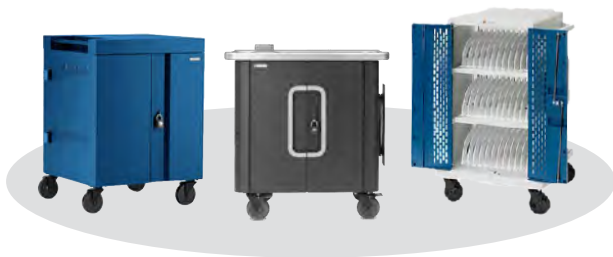

The most economical 1:1 student device

Powerful, yet easy to use mobile computing devices that support digital learning and collaboration.

LAPTOPS

Superior functionality for student and teacher use

Choose from a variety of today's best brands and support digital learning in your students laps.

CHARGING CARTS

Mobile solutions to safely store and manage devices

Confidently store, transport, and prepare your classroom laptops, chromebooks, or other personal devices.

PORTABLE CLASSROOM AUDIO

Hear and be heard

Ensure all your students- near or far- can clearly hear your instructions and the contributions of classmates.

AIR PURIFICATION SYSTEMS

Support healthy classrooms

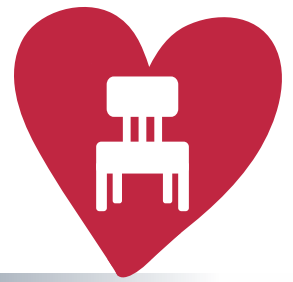

Improve air quality with these True HEPA air purification devices. Proven to remove 99.97% of pollen, dust, smoke, odors, and other particles.

Modern office spaces let your staff work, learn, and lounge in style, comfort, and convenience. Today's workspace solutions are ideal.

If your goal is to upgrade or transform your school office, reception area, staff room, or other administrative space, implementing new technology and furniture is key. We have exciting solutions and services to meet your needs.

"Administrative spaces are the backbone of a school, providing the essential support and resources needed to ensure a safe, welcoming, and effective learning environment for all students"

- Tom Hierck

LOVE YOUR SPACE

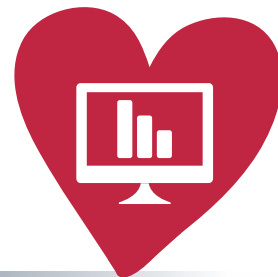

Educator Tips...

- Upgrade the desks, chairs, and other office or staff room furniture to more comfortable, collaborative, or ergonomic models.
- Create fun, contemporary, technology-rich spaces for your staff so they feel empowered and inspired.
- Good organization is key to a functional and efficient office. Invest in good filing cabinets, storage systems, and desk organizers.
- Use soundproofing or privacy screens to create private and comfortable spaces within an office.

INFRASTRUCTURE

Campus-wide technology, systems, and services help improve communication, increase safety, and enable business operations.

Our extensive range of school-wide hardware and software solutions focus on ensuring students, staff, and guests feel safe, informed, and connected.

MAKE IT MODERN

Advancements in technology now make it easy to enhance your school's communication, incident management, and wellness capabilities.

If your goal is to enhance campus-wide communications or IT, safeguard students and staff from illness, or effectively manage incidents, selecting the best products can make all the difference. We offer a variety of top-of-the-line solutions and knowledgeable experts to meet your needs.

"School-wide infrastructure is the foundation on which a school builds a safe, accessible, and effective learning environment for all students."

- Arne Duncan

LOVE YOUR SPACE

Educator Tips...

- Go digital. Alert and engage your students and staff with quality digital displays and media content across campus.
- Keep it clean. Place a portable air purification device in every classroom. These are small, effective, and affordable solutions to improve air quality and reduce pollutants.
- Implement smart sensors in areas where security cameras are not permitted - restrooms, change rooms, locker areas.
- Be bright and bold. Amplify your walls with creative acoustic panels, wall graphics, or wayfinding signage.

CAMPUS-WIDE

HEALTH AND SAFETY SOLUTIONS

Essential tools and technology solutions to safeguard your students, staff, and guests from harm and illness.

Smart Sensors

Security Cameras

Portable Air Purification

Panic Buttons

Mass Notification Systems

DIGITAL SIGNAGE

Ensure everyone, everywhere is kept informed and aware.

ROOM CONTROL

Simple, easy to use devices to operate the room's lighting and AV equipment.

Keep everyone on schedule and make campus-wide announcements with ease.

AUDIO/VIDEO CONFERENCING

Support virtual learning opportunities with affordable, classroom conferencing solutions.

DEVICE MANAGEMENT

Network Device Management Systems (NDMS) and extended product support and warranty services.

SCHOOL SEATING

Comfortable and functional seating solutions to accentuate the spaces and provide respite throughout your school.

SPACE DIVIDERS AND PARTITIONS

Create smaller spaces, areas for privacy, or enhance sound-proofing with these innovative barrier and partition solutions.

SANITIZER STATIONS

Provide easy access to a variety of health and safety solutions.

ACCOUSTIC PANELS

Sound absorbing design elements that creatively enhance your space.

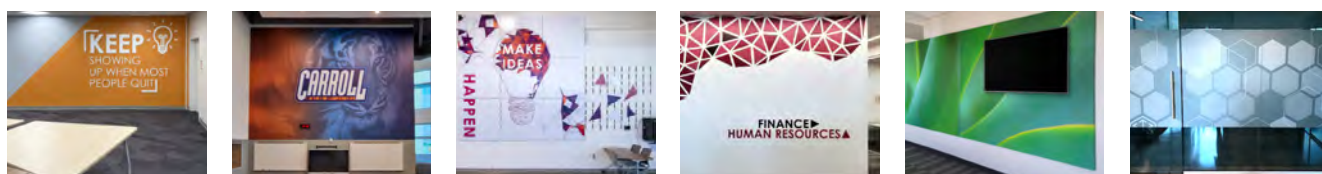

SIGNAGE

Help students, staff, and guests find their way across campus.

WALL MURALS, DECOR, AND GRAPHICS

Vivid, image-intense wall designs to inspire and install confidence in your students, teachers, and guests. Customizable.

FURNITURE

PROJECT SERVICES

As a full service, national provider, ELB is uniquely positioned to offer all our education customers a complete range of quality professional services. Whether you're upgrading existing spaces or building new facilities, our industry-qualified and experienced specialists can provide the turnkey services and support you need for success.

TECHNOLOGY DESIGN

Helping you select and successfully implement the right technology for your needs

Prior to making any technology investment it is important to consider all of the factors that can influence its success. At ELB, we can help by understanding your technology needs, and analyzing your current IT environment. Our industry experts can then provide a sound technology plan and the foundations for a successful hardware or software deployment.

FURNITURE DESIGN

Creating customized furniture designs with your school, district, or organization in mind

ELB is committed to ensuring every customer receives top quality learning space design services. Our experts take the time to understand your needs and work with you to design the perfect furniture plan. A truly collaborative process, the end result means you receive the perfect blueprints for the ideal student or school space.

PROJECT MANAGEMENT

Providing expert project management services to ensure projects stay on time, on scope, and on budget

Effective project management is fundamental to our solution delivery. All installations are coordinated and managed by experienced Project Managers. We utilize a proven process, supported by specialized tools and systems, to ensure timely delivery, accurate reporting, and quality workmanship. Our priority is providing dedicated, peace-of-mind support throughout an entire project.

IMPLEMENTATION

Delivering, installing, assembling, and commissioning your new technology and furniture solutions

All ELB installations are performed by highly trained and experienced specialists who maintain a consistent level of quality throughout every project. Whether your implementation needs are small- one room, one location- or extremely large- hundreds of rooms, multiple locations- we have the skills, experience, and knowledge to ensure a safe and successful delivery.

IT & HELPDESK SERVICES

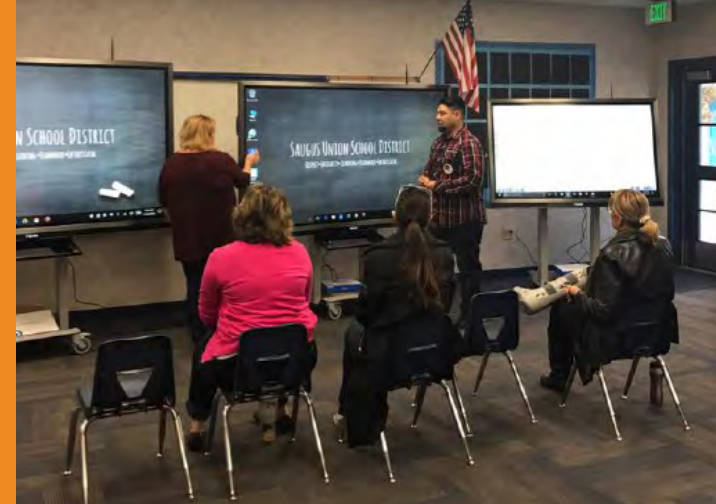

Offering convenient, peace-of-mind IT support services to keep your school operations moving forward

When you need expert and available IT support services, you count on ELB's comprehensive IT services team. Offering customized and convenient hardware, software, and network packages, our specialists will work closely with you to ensure your deployments of hardware, enhancements of systems, or audits of environments are done quickly and effectively.

TRAINING & PD

Helping your students and staff successfully adopt and thrive with your new learning solutions

ELB's comprehensive training options offer the support you need to build confident and competent users of technology. Our expert education trainers will work with you to customize a professional development plan based on your needs, with options ranging from extensive onsite programs, to train-the-trainer and virtual sessions. See real results, real fast.

SERVICE & SUPPORT

Delivering superior help desk and technical support services to help you maintain your technology assets

Keeping your valuable technology systems and hardware operating in peak performance is a top priority for many schools. ELB offers fast, efficient, reliable technical support services nationwide. Whether it's a support call to our help desk or an onsite service visit, our expert technicians can get your technology up and running quickly.

IT & HELPDESK SERVICES

We offer a variety of classroom, school, and district-wide IT services to get the most out of your hardware, software, or IT infrastructure. Let our experienced IT team provide hassle-free services to meet your needs.

Chromebook Enrollment

Let us help you enroll new or existing Chrome devices onto your Google Workspace or Device Management (MDM) platform. This allows for logging on, application of security policies to the devices, and more.

Workspace Best Practices Device Management Configuration

Our IT experts can review and update your Google Workspace. Google best practices will be incorporated into the policies so that enrolled devices are protected and operate effectively. Also includes reviewing your current Workspace configuration to perform updates or improvements, as needed.

Workspace For Education Setup

New to the Google world? Let us help you set up a Google Workspace for your organization. Google Workspace for education is the platform on which Chrome devices operate.

Windows Device Enrollment

We can help you enroll new or existing Windows devices onto your M365 for Education or Device Management (MDM) platform. This allows for logging on, application of security policies to the devices, and more.

MS365 Best Practices Device Management Configuration

Let us help by reviewing and updating your M365 platform. Microsoft best practices will be incorporated into the policies so that enrolled devices are protected and operate effectively. Also includes reviewing your current M365 configuration to perform updates or improvements as needed.

M365 For Education Setup

Want to set up Microsoft 365 across your organization? We can help. M365 is the platform on which education technology devices, regardless of manufacturer, can operate.

UNIVERSAL SUPPORT SERVICES

IT Technical Support Program

Technical support is only a phone call away! Let us provide comprehensive, on-demand product troubleshooting and operational support for your valued education technology.

Network Set-up or Improvement

Let us help you install or improve the physical network that is supporting your technology. Includes wireless access points, servers, bandwidth capability, and all the wiring in between.

TRAINING & PD SERVICES

Our training and curriculum experts can provide customized services to meet the needs of your District, school, or classroom. Ensure your students, staff, or parents acquire the knowledge, skills and confidence they need to thrive.

K1-12 TUTORING SERVICES

Push-in Classroom Support

- Curriculum experts provide individual, small group, or whole class instructional assistance
- Tutors provide support during the instruction period
- Active collaboration between teachers, tutors, and students
- Tutors can support in breakout rooms

Out-of-School Tutoring and Academic Support

- Tutors provide support outside of instructional time
- Can function as “office hours” and extended learning for a targeted group of students
- Can serve as “drop-in” homework help

ENRICHMENT PROGRAMS

Enrichment Courses

Choose from a variety of courses, workshops, and programs to learn, develop, and apply foundational knowledge. Students receive hands-on instruction from a trained and experienced professional.

Family Workshops

A variety of workshops to help families build academic skills, develop leadership competencies, and support their children in school and as they prepare for college and careers.

- Supporting Students To And Through College
- Building Academic Skills At Home
- Leadership Development
- Test Preparation

STAFF & EDUCATOR PROFESSIONAL DEVELOPMENT SERVICES

Customized training and professional development offerings to help educators achieve specific learning and teaching goals. Each session is tailored to meet the needs of your teachers, administrators, or support staff, utilizing your schools' technology to create more engaging, collaborative, and flexible learning experiences.

- Professional development, mentoring, and education consultancy services in an education setting
- Teachers will create and evaluate lessons that will be added to an accessible repository that can be utilized by all
- PD will be delivered by a credential teacher to ensure classroom and content relevancy
- Self-service materials will be included
- Session delivered onsite or virtually

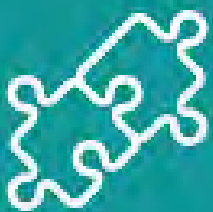

SCHOOL SUPPORT SERVICES

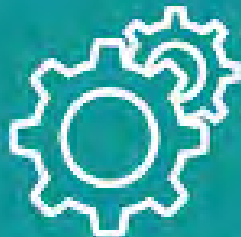

Through our sister company, Oxilium, we offer a diverse range of services to support the strategic, operational, marketing, and educational needs of schools and organizations. Our holistic approach ensures that each project is enriching and in tune with modern demands. Choose Oxilium for a balanced blend of traditional wisdom and forward-thinking solutions.

2

The ELB Education

difference

Education is in our DNA.

For nearly **four decades** we have been working with thousands of schools and educational organizations around the world to create and maintain learning environments that are **engaging, empowering, and equitable**. Many of our employees have a teaching background and a passion for improving learning.

Through our proven process, we can help you develop **modern spaces** anywhere in your school that encompass a learner-focused approach to education and life.

Creating and supporting these spaces—**spaces which your staff, students, parents, and community will love**— is our ultimate goal.

DESIGN & PLAN

Our expert learning space design, technology, and product management teams will work with you to identify quality solutions and develop plans for spaces you'll love.

Personalized service from our experienced consultants, interior designers, and technology experts to:

- Understand the needs of your school, staff and students
- Review existing spaces, technology, and furniture
- Confirm project scope and expectations
- Develop modern designs and product plans

ORDER & SCHEDULE

Our expert purchasing, logistics, and project management teams will work with you to carefully plan, schedule, and oversee the delivery of your new spaces.

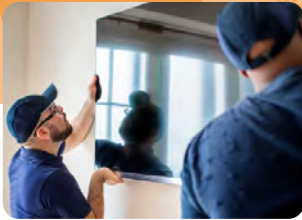

Customized support from our experienced procurement specialists, logistics agents, and project managers to:

- Place orders of products with our well-known manufacturers
- Create a detailed project plan
- Schedule, communicate, and manage project delivery
- Receive, warehouse, and dispatch products to site

MODERN IS OUR MANDATE

At ELB, we take a multi-faceted approach to the creation of new learning spaces. We talk with educators, review research, and critically evaluate new products and services to ensure everything we offer represents outstanding value. We are innovators in our industry and meet the needs of our customers with quality, fit-for-purpose, contemporary solutions.

3

BUILD & INSTALL

Our experienced installation and commissioning teams will come onsite to build, assemble, configure, and stage your new solutions to create the spaces you'll love.

Professional support from our certified installation, assembly, and commissioning technicians to:

- Deliver, unpack, and prepare your new solutions
- Build, install, configure, and connect technology solutions
- Assemble, move, and stage furniture solutions

4

CLOSE-OUT & TRAIN

Our certified operations and professional development teams will work with you to ensure your new spaces are ready to go and that your staff are well equipped to love them.

Specialized support from our credentialed operations staff, education consultants, and trainers to:

- Review the setup and proper completion of the new spaces
- Confirm project close-out with school representatives
- Provide end user training and support, as required

5

SERVICE & SUPPORT

Our expert technical service, product support, and customer experience teams will be available at any time to assist you in loving your new spaces.

Personalized support from our expert technicians, product advisors, and customer service specialists to:

- Support the adoption and implementation process
- Provide real-time product and technical support
- Deliver product warranty and repair services
- Offer advice and insights to maximize benefits

THANKS FOR CHOOSING US

A school is not merely a physical space where education happens; it is a sanctuary for knowledge, a nurturing ground for young minds, and a hub of creativity, inspiration, and community for everyone. In today's educational landscape, creating spaces that your students, teachers, and the community will love is paramount to fostering a positive and effective learning experience.

"Love Your Space" is not just a catchphrase we use; it's a philosophy that can transform education into an engaging and empowering journey for everyone. However, it is not a one-size-fits-all endeavor. It requires a focus on and attention to the details, including individual need matched with collective preference, and a commitment to adapt and innovate.

Ultimately, by fostering an environment where a love for learning can thrive, educators empower their students to reach their full potential and become lifelong learners.

At ELB, we want everyone to embrace the idea of "Loving Your Space" and would welcome the opportunity to help transform your school into a vibrant hub of inspiration, curiosity, and growth.

START YOUR  JOURNEY WITH ELB TODAY!
